

K-Love is the only radio station I will let my family listen too. It is the only station that plays music with a Godly, uplifting message that impacts lives (including ours); and they provide so much more (community info, teaching, prayer, announcements, etc.).

To lose K-Love would be like turning out the light in our city and in our lives.

So many people have been helped/lives saved by the message in the music they play--don't take that away (there are many testimonies, spoken and unspoken)!

K-Love really does make a positive difference--and it is the only station I know of that does!! Our nation is getting back to family values and K-Love is a part of that. Please do not remove it from our city(s), our city(s) need what this station has to offer! And please don't take away the one radio station my family listens too!

Thank You for your consideration,

Denise Almquist
